<b>Module AAA-0001: "Understanding the Germans" - Intercultural Communication and Awareness</b> <i>"Die Deutschen verstehen" - Interkulturelle Kommunikation und Sensibilisierung</i>		4 ECTS/LP
Version 1.0.0 Person responsible for module: Anne Hanik		
<b>Contents:</b> The participants get an insight into the German culture and a possibility to exchange their experiences. The basis for this are theoretical topics (e.g. culture) and their definitions, communication and its types. Furthermore, cultural styles of communication are discussed and compared with different countries using modern media. In addition, different areas such as stereotypes, everyday life, taboo and regional differences will be discussed. The course offers a lot of room for exchange and discussion, which should lead to questioning one's own attitude towards other cultural circles.		
<b>Learning Outcomes / Competences:</b> The aim of this course is to provide the exchange students with the knowledge of cultural differences in communication and to sensitize them interculturally. The basis for this is the German culture and the initial cultures of the participants. During the course, students will have an opportunity to think about their own culture and compare it with the German one. This will lead to a better understanding of both. The course is not only based on theoretical content, but also on practical exercises from the field of intercultural training. Students are expected to actively participate and to actively exchange their experiences.

Furthermore this module includes two city tours in the city of Augsburg and lots of opportunities to explore a student's creativity on each topic agenda.		
<b>Learning Outcomes / Competences:</b> The goal of this seminar is to provide the students with essential knowledge about the host country Germany and to facilitate their curiosity to examine the differences and similarities between their native culture or cultures and the German one.
